

## Curriculum Vitae of Prof. Dr. Georg Pelz (July 2020)

### Personal Data:

Born: 16.12.1962  
At: Wuppertal, Germany  
Nationality: German  
Address: Praetoriusbogen 25, 85560 Ebersberg, Germany

### Academic Career:

Oct. 1983 – Dec. 1988	Diploma in Computer Science, University of Dortmund (magna cum laude)
May 1993	Ph.-D. at Gerhard-Mercator-University, Duisburg, Faculty of Electrical Engineering (summa cum laude), "A System for Physical Design Verification"
Feb. 2001	Habilitation at Gerhard-Mercator-University, Duisburg, Faculty of Electrical Engineering, "Modeling and Simulation of Mechatronic Systems with Hardware Description Languages"
Since March 2012	Honorary Professorship in Automotive Electronics at the University Duisburg-Essen, Faculty of Engineering

### Professional Career:

Jan. 1989 – June 1993	Fraunhofer-Institute for Microelectronic Circuits and Systems, CAD department, Duisburg
July 1993 – June 1996	Gerhard-Mercator-University Duisburg, Post-Doc at Chair Electron Devices and Circuits
July 1996 – Sep. 2000	Gerhard-Mercator-University Duisburg, Primary Engineer (Oberingenieur) at Chair Electron Devices and Circuits, Lead of a group of three Ph.-D. students
Oct. 2000 – Jan. 2003	Infineon Technologies AG, Memory Products Development engineer / project manager in the development of disk drive electronics

Feb. 2003 – Aug. 2003	Infineon Technologies AG, Automotive Development engineer / project manager in the department of design methodology for automotive power
Sep. 2003 – Feb. 2019	Infineon Technologies AG, Automotive Head of the department of design methodology for automotive power
Feb. 2005 – March 2013	Infineon Technologies AG, Automotive Position on technical career path: Principal Design Methodology
Since Apr. 2013	Infineon Technologies AG, Automotive Position on technical career path: Senior Principal Development Methodology Automotive Products

**Awards:**

- 1991 Contribution [12] (see publication list) received a distinguished paper citation at IEEE International Conference on Computer-Aided Design of Integrated Circuits and Systems (ICCAD).
- 1992 Contribution [13] (see publication list) received a nomination for the best paper award at the ACM/IEEE Design Automation Conference (DAC).
- 2004 Contribution [49] (see publication list) was selected at the World Congress of the Society of Automotive Engineers to appear in the SAE Transactions.
- 2010 Contribution [68] (see literature list) received a best paper award at the ME2010
- 2014 Contribution [80] (see literature list) received a best paper award at the Forum on Specification and Design Languages FDL
- 2015 Contribution [93] (see literature list) received the Mentor Award at the International SoC Design Conference ISOCC
- 2016 Contribution [95] (see literature list) received the ST Microelectronics Life Augmented Best Poster Award at the IEEE Sensors Applications Symposium, SAS
- 2016 Contribution [103] (see literature list) received the EDA Competition Award Runner-Up at the International Conference on Synthesis, Modeling, Analysis and Simulation Methods and Applications to Circuit Design, SMACD

- 2018 Contribution [111] (see literature list) received a nomination for the best paper award at the IEEE Artificial Intelligence for Industries Conference
- 2018 Contribution [112] (see literature list) received a best student paper award at the International Semiconductor Conference CAS
- 2019 Contribution [119] (see literature list) received a Best Young Professional Poster Award at the IEEE International Conference on Electronics, Circuits and Systems, ICECS
- 2019 Contribution [120] (see literature list) received a Best Poster Award at the IEEE International Symposium for Design and Technology in Electronic Packaging, SIITME

## Publications:

### Ph.-D. thesis:

- [1] G. Pelz, „Ein integriertes Programmsystem zur strukturellen Verifikation mikroelektronischer Schaltungsentwürfe“, Gerhard-Mercator-University, Duisburg, Faculty of Electrical Engineering, 1993.

### Habilitation

- [2] G. Pelz, „Modellierung und Simulation mechatronischer Systeme mit Hardwarebeschreibungssprachen“, Gerhard-Mercator-University, Duisburg, Faculty of Electrical Engineering, 2001.

### Monographies

- [3] G. Pelz, „Ein integriertes Programmsystem zur strukturellen Verifikation mikroelektronischer Schaltungsentwürfe“, VDI-Verlag, Düsseldorf, 1995
- [4] G. Pelz, „Modellierung und Simulation mechatronischer Systeme – vom Chip- zum Systementwurf mit Hardwarebeschreibungssprachen“, Hüthig-Verlag, Heidelberg, 2001
- [5] L.M. Voßkämper, R. Schmid, G. Pelz, „Modeling micro-mechanical Structures for System Simulations“, chapter in: System on Chip Design Languages - best of FDL'01 and HDLCon'01”, Editor: A. Mignotte, E. Villar, L. Horobin, Kluwer 2002.
- [6] G. Pelz, „Mechatronic Systems – Modeling and Simulation with HDLs”, John Wiley and Sons, 2003
- [7] G. Pelz and M. Hell, “Simulation von LIN-Clustern”, chapter in book “LIN-Bus”, Franzis, 2004.
- [8] G. Pelz, P. Oehler, E. Fourgeau and C. Grimm, „Automotive System Design and AUTOSAR“, chapter in: Advances in Design and Specification Languages for SoCs, Springer 2005.
- [9] G. Pelz, “sistemas mecatrónicos – modelado y simulación con HDLs”, Limusa Wiley, 2006.
- [10] M. Rafaila, C. Decker, C. Grimm, G. Pelz, "Design of Experiments for Effective Pre-silicon Verification of Automotive Electronics", chapter in: Advances in Design Methods from Modeling Languages for Embedded Systems and SoC's – Selected Papers from FDL 2009, Springer, 2010.
