

CURRICULUM VITAE

Valeriu M. FILIP, Professor emeritus

I. PERSONAL DATA:

Name: Valeriu M. FILIP
Nationality: Romanian

Languages

known:	<u>writing</u>	<u>reading</u>	<u>speaking</u>
	<u>English</u>	very good	very good
	<u>French</u>	good	very good
	<u>Romanian</u>	(mother tongue)	good

II. ACADEMIC DEGREES:

Ph.D. in Physics, Faculty of Physics, University of Bucharest, Romania, January 20th, 1998.
 Thesis title: **Contributions to the Study of Electron Emission from Semiconductors under High Electric Fields and Applications.**

M.S., Solid-State Physics, Faculty of Physics, University of Bucharest, Romania, 1979.
 B.S. and M.S. Thesis on "Phonon Drag Effects in Solid State Transport Phenomena"

B.S., Physics, Faculty of Physics, University of Bucharest, Romania, 1978.

III. STAGES OF UNIVERSITY EDUCATION:

1974-1978 Faculty of Physics, University of Bucharest, Romania, Subject: Physics
 1978-1979 Faculty of Physics, University of Bucharest, Romania, Subject: Solid State Physics
 1989-1993 Faculty of Physics, University of Bucharest, Romania
 Subject: Solid State Physics and Applications, doctoral preparing programme

IV. FELLOWSHIPS:

NUFFIC Fellowship, Eindhoven University of Technology, Faculty of Physics, Eindhoven, the Netherlands, 1996.

JSPS Post Doctoral Fellowship, Nagoya Institute of Technology, Graduate School of Engineering, Nagoya, Japan, 1998-2000.

V. PROFESSIONAL BACKGROUND:

Period	Positions and responsibilities	Institution
Oct.1979 - Oct.1982	Physicist: research duties on ZrH ₂ moderated TRIGA thermal reactor at IRNE Pitesti-Colibasi, Romania.	Research Institute for Nuclear Power Reactors (IRNE), Pitesti-Colibasi, Romania
Oct. 1982 - Oct. 1983	Research Physicist: research duties on ZrH ₂ moderated TRIGA thermal reactor at IRNE Pitesti-Colibasi, Romania.	IRNE, Reactor Security Division
Oct. 1983 - Feb. 1992	Assistant Professor: laboratory and seminar courses in Mechanics and Introductory Thermal Physics for first year physics students.	University of Bucharest, Faculty of Physics, Thermal Physics Department

Feb. 1992 - May 1998	Lecturer: lecture courses on Thermal Physics and laboratory and seminar courses in Introductory Thermal Physics for first year physics students; lecture courses on Materials and Technologies for Environmental Protection for fourth and fifth year physics students.	University of Bucharest, Faculty of Physics, Thermal Physics Department
May 1998 – May 2000	JSPS Post Doctoral Fellow: research activities in vacuum microelectronics.	Nagoya Institute of Technology, Graduate School of Engineering, Nagoya, Japan
May 2000 – January 2001	Lecturer: lecture courses on thermal physics and laboratory and seminar courses in introductory Thermal Physics for first year physics students; lecture courses on Materials and Technologies for Environmental Protection for fourth and fifth year physics students.	University of Bucharest, Faculty of Physics, Thermal Physics Department
January 2001 – July 2003	Associate Professor: lecture courses on Thermal Physics for first year physics students; lecture courses on Materials and Technologies for Environmental Protection for fourth and fifth year physics students.	University of Bucharest, Faculty of Physics, Thermal Physics Department
July 2003 – April 2005	Senior Research Associate. Researches on: 1. Silicon oxide/silicon nitride for microelectronic and optoelectronic applications. 2. High quality high-K dielectric films and their applications	City University of Hong Kong, Electronic Engineering Department and Optoelectronics Research Centre
April 2005 – June 2006	Associate Professor: lecture courses on Thermal Physics for first year physics students; lecture courses on Materials and Technologies for Environmental Protection for fourth and fifth year physics students.	University of Bucharest, Faculty of Physics, Thermal Physics Department
June 2006 – September 2006	Research Fellow. Researches on: Electron tunnelling through ultra-thin barriers and Electroluminescence of Si nanodots embedded in SiO ₂ or oxynitride matrices.	City University of Hong Kong, Electronic Engineering Department
September 2006 – February 2008	Associate Professor: undergraduate lecture courses on Thermal Physics; graduate lecture courses in Investigative Methods for the Environment.	University of Bucharest, Faculty of Physics, Thermal Physics Department
June 2008 – September 2008	Research Fellow. Researches on: Rare earths-based ultra-thin MOS films.	City University of Hong Kong, Electronic Engineering Department
June 2011 – September 2011	Research Fellow. Researches on: Preparation of Nanoparticle-Embedded High-k Dielectric Films for Flash Memory Applications.	City University of Hong Kong, Electronic Engineering Department
June 2013 – August 2013	Research Fellow. Researches on: Investigation of Rare-Earths Stacked Dielectrics for Next Generation Nano CMOS Device Applications (Project No. 7002761).	City University of Hong Kong, Electronic Engineering Department

April 2017 – July 2107	Senior Research Fellow. Researches on: ESD Protection for 22 nm CMOS Technology (Project No. 9041919)	City University of Hong Kong, Electronic Engineering Department
February 2008 – October 2019	Professor: undergraduate lecture courses on Thermal Physics; graduate lecture courses in Investigative Methods for the Environment.	University of Bucharest, Faculty of Physics, Thermal Physics Department
October 2019 - present	Professor emeritus	University of Bucharest, Faculty of Physics
March 2018 – October 2021	Senior Research Scientist	National Institute for Airspace Research “Elie Carafoli”, Bucharest, Romania
January 2018 - present	Senior Research Scientist	Research Center for Surface Science and Nanotechnology, University POLITEHNICA of Bucharest

Subjects of research:	Moderators for nuclear thermal reactors: ZrH₂	(1979-1983)
	Solid state transport phenomena: Drag effects	(1983-1992)
	Solid state high field transient phenomena	(1992-1996)
	Vacuum microelectronics	(1994-1999)
	Vacuum nanoelectronics	(1999-present)
	Charge transport in nano-structures	(2003-present)
	Environmental physics	(2005-present)

- **84 published papers in referred journals, 78 of them in the following international journals: Journal de Physique I, Applied Surface Science, Journal of Vacuum Science and Technology A, Journal of Vacuum Science and Technology B, Review of Scientific Instruments, Ultramicroscopy, Japanese Journal of Applied Physics, European Physical Journal - Applied Physics, Applied Physics Letters, Microelectronics Engineering, Microelectronics Reliability, Thin Solid Films, Journal of Nanoscience and Nanotechnology, Journal of Instrumentation, Journal of Atmospheric and Solar-Terrestrial Physics, Vacuum, Solid State Electronics Letters, Atmospheric Measurement Techniques.**
- **The published papers have been cited over 1500 times in the specialized literature.**
- **33 papers presented at international conferences.**
- **Hirsch index =15**
- **i10 – index = 30**
